Git | GitHub  
Postman | Heroku | Firebase  
Trello | Jira  
Agile | Scrum

## LANGUAGES

English - working proficiency  
Dutch - beginner

# WORK EXPERIENCE

## FRONT-END DEVELOPER

### *EmploSoft | Remote*

Dec 2019 - Present

- Developed and implemented highly responsive components using React and Redux.
- Used React-Router for SEO optimization.
- Converted class components into functional components with Hooks for performance boost and code readability.
- Tested cross-browser and cross-platform compatibility before deployment.
- Took ownership and built the Front-End of the CRUD app.
- Developed authorization and pagination features.
- Integrated Material-UI pagination with Styled-Components resulting in 30% performance increase.
- Implemented lazy load, search bar with debouncing, client-side sorting and filtering.
- Manipulated and generated UI based on REST API.
- Defined API requirements for the Back-End team.
- Translated design team's UX mockups from Figma into responsive, interactive UI components.
- Contributed to improving of UI/UX of the main product to improve overall satisfaction with the app.
- Used JIRA to track, report and audit the issues in the application.
- Documented best practices on Confluence.
- Added automatic testing to CI/CD deployment pipeline based on GitHub and Heroku.

## FRONT-END DEVELOPER

### *TalentGrid | Remote*

Jan 2022 - Present

- *Community service volunteer*; With the support of volunteer software developers, project managers and analysts, it aims to implement projects that institutions providing services in the fields of children's rights, women's rights, animal rights, equality in education and nature protection cannot implement due to financial limits.
